SUMMARY

Driven software engineer with a demonstrated history of delivering scalable, user-focused solutions that enhance system performance and user satisfaction. Proficient in leveraging advanced technologies, including AI/ML integration, and Agile methodologies, to craft innovative applications and streamline processes. Recognized for combining analytical expertise with creative problem-solving to achieve project goals and support organizational success.

EXPERIENCE

Software Engineer

Center for Youth Initiatives

August 2023 - August 2024, Tashkent, Uzbekistan · Remote

- **Performed** regular system updates and performance optimizations to maintain system integrity.
- **Managed and updated** the organization's website, ensuring optimal functionality and user experience.
- **Collaborated** in cross-functional teams for project management, utilizing **Agile methodologies**.
- **Implemented** AI modules for advanced data analysis tasks, enhancing decision-making processes.
- **Key Technologies:** Python, Spring Boot, Unreal Engine 5, AI/ML Integration, Git, Agile/Scrum, Data Analysis

Back End Developer

Smirnoff Agency

March 2022 - July 2023, Russia · Remote

- **Developed and maintained** web applications using **Laravel** and **PHP**, enhancing functionality and user experience.
- **Integrated** artificial intelligence (AI) functionalities into projects to improve performance and offer advanced features.
- **Designed, developed, and managed** APIs for seamless system connectivity and data exchange.
- **Ensured** data security and compliance with industry best practices and regulatory standards.
- **Collaborated** with front-end developers to align backend solutions with user interfaces, ensuring cohesive product development.
- **Key Technologies:** Laravel, PHP, MySQL, RESTful APIs, AI Integration, Git, AWS

Media Analyst

International Media Service

July 2021 - April 2022, Tashkent, Uzbekistan

- **Created and executed** digital strategies to enhance business analysis and strategic planning.
- **Designed and implemented** interactive dashboards and analytics tools using **Tableau** and **Power BI**.
- **Applied** analytical skills to interpret complex data sets and provide actionable business insights.
- **Constructed and refined** data models to improve data systematization and accessibility.
- **Key Technologies:** Excel, Tableau, Power BI, Data Modeling, Business Intelligence, Data Analysis

EDUCATION

Master's degree, International Software Systems Science

Otto-Friedrich-Universität Bamberg · Bamberg, Germany · May 2025

Bachelor's degree, Computer Software Engineering

INHA University in Tashkent · Tashkent · 2021 · 3.7 GPA

SKILLS

Programming Languages: Python, Java, C, C++

Frameworks & Tools: Spring Boot, Laravel, RESTful APIs, Git, GitHub

AI & Data Analysis: AI/ML Integration, Tableau, Power BI, Data Modeling, Business Intelligence

Cloud & Platforms: AWS, Microsoft Azure Machine Learning

Languages: English(Fluent), German(Basic), Russian(Fluent)
